The performance measure is based on analysis of 13 municipal indicators. Each of the 13 municipal indicators has a defined benchmark. A municipality is ‘not deemed to face potential long term viability challenges’ as long as it does not flag a critical indicator or three or more non-critical indicators. The ministry compiled and verified the data collected from Alberta’s municipalities for the 2022 financial year and is has advised that the Summer Village of Sunrise Beach did flag one indicator – Indicator #4 Tax Collection Rate. It is our understanding that Sandy Beach has approved \$8,000.00 in FCSS funding in both the 2023 and 2024 years (which as we understand it is all of their FCSS funding). I can advise that in 2023 we gave SSRL \$3,500.00 for their activities and programs. While Council does not have to make a decision at this meeting, the SSRL are looking to release their calendar of events as soon as possible and in order to do that they need to secure their funding. If Council has concerns, you could do like you did in 2023 and allocate a portion now and then review and assess the success of their programs and activities part way through the year and then decide at that point to allocate additional funds.</p> <p><i>(that \$_____ in 2024 Family and Community Support Services (FCSS) funding be allocated to the Sun and Sand Recreation League for their 2024 activities and programs)</i></p> <p>Or</p> <p><i>(some other direction as given by Council at meeting time)</i></p>

Hi Wendy,

Considering the Nov 30 deadline and the situation in South View, I presume that we are not interested in pursuing this?

Subject: SVLSACE - Connect Mobility Partnership

Good afternoon CAOs,

Further to our discussion at the SVLSACE Oct 28th, 2023 regular meeting regarding the opportunity for a partnership with Connect Mobility in making a 2024 Alberta Broadband Fund project application, please see the attached letter outlining the next steps that would be required by members interested in partnering on this intake.

We understand that some of our members may already working on this initiative through other arrangements, and that others may not want to participate at this time. Notwithstanding this, please note the November 30th, 2023 deadline for response to indicate your participation (or declining of same). Once we have the list of those interested in the project, we will send out the next set of materials and communications templates in early December 2023.

Thank you,

Dwight Darren Moskalyk

(Delivered by Mail)

Dear Member,

Re: Connect Mobility – Enhanced Internet Service Partnership and 2024 Alberta Broadband Fund (ABF) Application

Further to our last SVLSACE Regular meeting, where we received a presentation by Merle Isaacson on behalf of Connect Mobility, I am reaching out to share an overview of the process for those members who are interested in participating in the 2024 ABF intake. There are some important and time sensitive "next steps" required, as discussed below.

Our working timeline is to have all essential background information compiled to complete the application by the end of February 2024, with the anticipation of the next intake opening in March 2024. In the interim, we need confirmation of the following:

- i. Is your municipality interested in being a partner in this application?
- ii. What internet service providers currently provide service within your community, and what is the contracted internet speed they provided (the "subscribed speed")?
- iii. What internet speed is being delivered to your community (the "delivered speed")?

Item i. is entirely at your discretion as a Council. Please add to your next agenda and advise of your participation by **November 30th, 2023** by returning an email to me at ddm@kronprinzconsulting.ca.

Item ii. is a requirement of any member* wanting to be included in the application. If you can provide a list of known service providers in your area (for example, MCSnet, Xplore, Telus) we can reach out to confirm what their service "subscribed speed" for your community.

Item iii. is also a requirement of any member* wanting to be included in this application. This component will be completed through participating members who will in turn ask their residents (at least one in five households) to complete the prescribed survey on delivered internet speed (more detail on this will be provided as well as sample communications to use). This will be completed over a **15-week test period starting December 1st, 2023**. We will assist by sending sample communications/reminders to you to share with the community, and also serving as the point of contact for questions in accessing/completing the test.

*Although these items are a requirement, some communities in the area (as shown on the National Broadband Internet Service Availability map) already have a registered service speed

(subscribed or delivered) which is below the speed threshold of 50/10Mbps. In these cases, the members would not need to complete further community surveys as part of this process. As such, the following municipalities simply need to indicate their participation (item i.):

Birch Cove
Castle Island
Nakamun Park
Sunrise Beach
Val Quentin
West Cove

However, the following members would need to complete all three items in order to be included in the application:

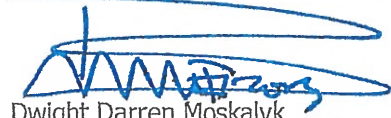

Ross Haven
Sandy Beach
Silver Sands
South View
Sunset Point
Yellowstone

Following the compilation of this data, Connect Mobility will make an application on behalf of all those interested members that have known or reported internet coverage below the 50/10Mbps threshold in their community. Should the application be successful, there would be an option – to be made at the local council level – for Connect Mobility to provide the matching funds for your municipality (in exchange for future area franchise rights) or to have the municipality provide their matching funds directly and retain the right to operate the resulting service themselves.

For now, if you can please get back to me on or before **November 30th, 2023** we can narrow down future correspondence to just those members interested in participating.

If you have any questions, please let me know.

Sincerely,

Dwight Darren Moskalyk

Subject: Recreation Special Tax

Further to the discussion at the Regional Municipalities Meeting (Oct.17.2023) regarding the above noted, please find some additional information.

1. Bylaw 02-2022 Recreation Services Tax and Bylaw 09-2023 Recreational Services Tax.

I've attached both because in 2022 we had an anomaly where we anticipated additional revenue due to an increase needed to offset contributions contemplated in future years through the ICF negotiations. (This is irrelevant to you – but I wanted to share both options for your reference). Historically, the format has followed the 2023 Bylaw, again with that exception in 2022.

Section 382 of the MGA establishes the parameters for setting a special tax bylaw – recreation services tax is allowable.

2. 2022 Allocation Chart: Final and 2023 Allocation Chart Year-to-date

24

Each municipality, given they pass a special tax bylaw for the collection of taxes for recreation purposes, can determine what organizations/facilities would receive these recreation dollars. These charts demonstrate how LSAC has allocated the funds for the past two years.

Note that the 2023 Allocation Chart is an actual to date, but I've included the budget for reference as well.

3. Policy 02-020-040 Recreation Facility & Program Assistance Grant

Although LSAC Administration is currently reviewing this policy, I've included it for your reference. This establishes the County's guidelines around our recreation grant allocations.

I trust this meets your needs, but if you have further questions or require more clarification/information, please connect.

Recreation Facility & Program Assistance Grant Policy

Effective Date: June 27, 2019
Review Date: June 27, 2024
Cancels: n/a
Resolution #: 418-2019

CAO Signature: 

Purpose: Council believes it is important to support community facilities, initiatives and events that are community driven to enhance and enrich Lac Ste. Anne County communities and residents. The purpose of this policy is to establish protocols and methodology to provide funding to not-for-profit community organizations and agencies through the Lac Ste. Anne County Recreation Facility & Program Enhancement Grant Program and to manage grant requests in a fair and organized manner.

Guidelines:

1. General

All funding programs will be based on annual approved budget resources. Due to budget restrictions and project prioritization, not all requests will receive funding.

The primary source of funding for this program will be the Recreation Special Tax, established through Bylaw annually. Council may choose additional resources to increase the funding available through this grant program. Funding may also be reduced when additional resources are not available.

(30)

The County has several programs providing financial assistance to community organization and/or agencies. This policy relates to the Recreation Facility & Program Assistance Grant Program only. All other financial assistance and funding programs provided by the County will be delivered in accordance with other bylaws, policies, procedures and/or by resolution. Where a community organization/agency has a contract or agreement with the County, and funding is provided as part of that contract or agreement, those funds are not subject to this process and will be negotiated as part of the terms of the contract or agreement.

Lac Ste. Anne County may provide grant funding through this program for:

A. Operating

To assist in offsetting facility and/or organizational expenses incurred in the operations of the not for profit organization for the provision of facility operations or program and activity delivery to community residents.

B. Sustainability

To assist with minor capital costs associated with safety codes upgrades, preventative maintenance, renovation, or purchase of capital equipment for community recreation and culture facilities located in the County.

C. Projects

To assist with the costs of recreation, culture and/or community projects, programs and events provided to community residents.

2. Funding Streams

The Recreation Facility & Program Assistance Grant will be delivered through two streams:

A. Direct Grant Allocation

- a. Direct allocations to qualifying organizations will be provided without the requirement for an application.
- b. A list of qualifying community organizations/agencies organizations will be established by Council annually and will be categorized by similar types of facility, program or initiative.

- c. The level of funding for each category will be established by Council annually.
- d. All grant recipients will be required to meet the accountability requirements established below.
- e. All grant recipients will be required to acknowledge the receipt of funding as established below.
- f. For all allocations of \$5,001 or more, the County reserves the right to participate in the recipient's annual budget deliberations.
- g. For all allocations of \$5,001 or more, a three (3) year budget must be provided.

B. Application/Request

- a. Eligible community organizations/agencies may make a request, in writing, for grant funding.
- b. County Administration will review funding requests and make funding recommendations to County Council based on established county priorities and funding availability.
- c. Application/Request must include the following:

Subject: 2022 Municipal Indicator Results: Summer Village of Sunrise Beach (0386)

Wendy Wildman

Chief Administrative Officer

Summer Village of Sunrise Beach

Dear Wendy,

Alberta Municipal Affairs annually reports a performance measure that identifies the percentage of municipalities deemed to 'not face potential long term viability challenges based on their financial and governance indicators'. This performance measure is used as a benchmark for measuring the ministry's efforts to ensure Albertans live in viable municipalities and communities with responsible, collaborative and accountable local governments.

The performance measure is based on analysis of 13 municipal indicators. Each of the 13 municipal indicators has a defined benchmark. A municipality is 'not deemed to face potential long term viability challenges' as long as it does not flag a critical indicator or three or more non-critical indicators.

Your municipality did not meet the threshold for one or more indicators. The attached Excel file shows the indicator(s) where your municipality did not meet the defined benchmark in the 2022 financial year.

The benchmarks established by Municipal Affairs for each indicator provide a general indication of acceptable risks. However, a municipality may have unique circumstances or alternative strategies that justify a different result. Therefore, we ask you to complete the attached Excel template to provide your feedback or any explanatory information about your performance on the identified indicator(s). Your responses will be included in the Municipal Indicator Dashboard (www.alberta.ca/municipal-indicators).

If you require assistance completing the feedback form, or need information about the future release of indicator results, please call, toll-free at 310-0000, then 780-427-2225, and ask to speak to a member of the Information Services Team or email ma.updates@gov.ab.ca.

Thank you,

Municipal Indicators

Find out more about how each municipal indicator is calculated and what the results mean

Each indicator is intended to measure a specific aspect of the municipality's governance, finances, or community.

Each indicator has a defined benchmark. The benchmarks established by Municipal Affairs for each indicator are rules of thumb that provide a general indication of acceptable risk; however, a municipality may have unique circumstances or alternative strategies that justify a different result. Should a municipality flag an indicator, Municipal Affairs allows stakeholders to provide an explanation as to result. This explanation is then published next to the indicator result on the Municipal Indicators' Dashboard.

Indicator and Description	Expected Result	What It Means	Suggested Follow Up for Exceptions
<p>1 - Audit Outcome</p> <p>An audit report in the municipality's audited annual financial statements.</p>	<p>The audit report does not identify a going concern risk or denial of opinion.</p>	<p>The municipal auditor was able to complete the audit and express an opinion and did not identify a specific concern about the ability of the municipality to meet its financial obligations.</p>	<p>Follow auditor recommendations to resolve denial of opinion issues. Consider obtaining professional financial consulting services or requesting a viability review to address going concern issues.</p>
<p>2 - Ministry Intervention</p> <p>Interventions authorized by the Minister of Municipal Affairs in accordance with the <i>Municipal Government Act</i>, such as a viability review, or where directives were issued pursuant to an inspection.</p>	<p>The municipality was not the subject of a Municipal Affairs intervention.</p>	<p>Municipal Affairs is not undertaking a formal intervention with respect to the municipality. The Minister typically intervenes only when requested by a council or through a petition, and only issues directives in cases where significant concerns are evident.</p>	<p>Complete Minister-directed processes and actions.</p>

<p>3 - Tax Base Balance</p> <p>The proportion of the total municipal tax revenue generated by residential and farmland tax base, regardless of whether it is municipal property taxes, special taxes, or local improvement taxes.</p>	<p>The municipality's residential and farmland tax revenue accounts for no more than 95 per cent of its total tax revenue. Summer Villages are excluded from this indicator to better reflect their geographical and economic conditions.</p>	<p>The municipality can rely in some measure on its non-residential tax base to generate a portion of its tax revenues. These properties are typically taxed at a higher rate than residential and farmland properties.</p>	<p>Ensure taxes on residential and farmland properties are sufficient to meet budgeted expenditure requirements.</p>
<p>4 - Tax Collection Rate</p> <p>The ability of the municipality to collect own-source revenues, including property taxes, special taxes, local improvement taxes, and grants-in-place-of-taxes.</p>	<p>The municipality collects at least 90 per cent of the municipal taxes (e.g. property taxes, special taxes) levied in any year.</p>	<p>The municipality is able to collect its tax revenues and use those funds to meet budgeted commitments and requisitioning obligations.</p>	<p>Review tax collection and recovery policies and processes.</p>
<p>5 - Population Change</p> <p>The change in population of the municipality over the past ten years based on the Municipal Affairs Population List.</p>	<p>The population has not declined by more than 20 per cent over a ten-year period. Summer Villages are excluded from this measure because of the small permanent population.</p>	<p>The population of the municipality is stable or growing.</p>	<p>Consider how services and infrastructure can be scaled down to accommodate reduced demands.</p>

This indicator is not typically measured if the municipality's total assets exceed current assets by a factor of two or more, as these municipalities typically have significant financial resources including long-term investments, but manage with minimal current assets.</p>	<p>The municipality is able to pay for its current financial obligations using cash or near-cash assets.</p>	<p>Consider increasing revenues or reducing costs to provide additional working capital.</p>
<p>7 - Accumulated Surplus/Deficit</p> <p>The total assets of the municipality net of total debt, excluding equity in tangible capital assets (tangible capital property less debts related to tangible capital property).</p>	<p>The municipality has a positive (above zero) surplus.</p> <p>An accumulated deficit is a violation of Section 244 of the <i>Municipal Government Act</i>. Municipalities in a deficit position are required to recover the shortfall in the next year.</p>	<p>The municipality has more operational assets than liabilities, which generally provides the municipality with cash flow to meet ongoing obligations and manage through lean periods of the year where costs may exceed revenues.</p>	<p>Consider increasing revenues or reducing costs to provide additional surplus and maintain working capital.</p>
<p>8 - On-Time Financial Reporting</p> <p>Whether the municipality successfully submitted its completed annual financial statements and financial information return to Municipal Affairs by the legislated due date.</p>	<p>The municipality's financial statements and financial information return for the preceding calendar year are received by Municipal Affairs no later than May 1st or the approved extension date.</p>	<p>The municipality is preparing its audited financial reports on a timely basis. AGREEMENTS

April 7th, 2021

Summer Village of Sunrise Beach
Box 1197
Onoway, AB. T0E 1V0

Att: Lana Lange

Dear Lana:

Re: Wastewater Effluent Disposal

In reference to the above noted, and your March 24th, 2021 email requesting a 3 year extension to our existing wastewater disposal agreement, please be advised this matter was presented to the Council of the Town of Onoway at their regular meeting of April 1st, 2021.

I am pleased to advise Council approved a three-year extension to our existing agreement, taking us to April 30th, 2024. Similarly, the Town has extended the Summer Village of Sandy Beach's permission to this same date, April 30th, 2024. The disposal fee of \$55.00/load will remain in place for the 2021 year, and this fee is estimated to increase to \$65.00/load for the 2022 year.

This approval is conditional on one service provider hauling in the effluent, and that service provider being Standstone Waste. Should you change service providers you will need to request approval from the Town to continue disposal. We expect your service provider to ensure that ONLY wastewater effluent from the Summer Village of Sunrise Beach, or our other approved communities, will be hauled in and should there be deemed a breach of this condition access to our lagoon will be terminated immediately. We request monthly reporting of the volumes going in, and the disposal fee collected. We request a 30 day termination notice by either party, or in the event of an emergent situation access to our lagoon may be suspended immediately and until the situation is resolved.

Subject: Purr-fect Friends Project

Hi Tori,

Could you please forward the following request and attached document to Council for their consideration. Please note that FCSS funds cannot be applied to this project.

Under the management of the League, and the supervision of a Director, the Sun & Sand Community League have launched the Purr-fect Friends Project.

This project was initiated in response to the volume of residents contacting the league regarding their concerns for the growing number of stray and feral cats in and around the village, and the lack of resources available that could assist with addressing the concerns of residents.

We are currently in discussion with local vets, rescue centers, potential funders, etc. to procure in-kind services and products, and grant funding.

We are requesting the support of Council, and ask that a letter of support from the municipality be provided. We also request a small donation of \$500.00 (or as decided by Council) to help us approach funders with some sorts in matching funding.

The League will potentially become primary contact for all residents expressing concern with community cats, and will relieve the burden on Council and Administration.

Please find attached a brief overview of the project and its components. Please feel free to reach out should you require additional information.

Kind regards,

Purr-fect Friends Project

A Sun & Sand Community League Initiative

This vital initiative advocates for the well-being of domesticated cats and supports humane methods in controlling the feral cat population in and around the rural adjoining municipalities of SV Sandy Beach and SV Sunrise Beach.

The Objective

Supported by both municipalities, the project aims to build a network of community volunteers, animal care specialists, pet food suppliers, and local businesses, that will collaborate in the offerings of accessible services and supports for cat owners, while providing education and resources in humanely addressing the high population of the area's feral cat colonies.

The Plan

Beginning in November 2023, the Purr-fect Friends Project will start to introduce the following components that will steer the initiative towards reaching its objective.

Shelters & Feeding Stations Program

The goal is to build and place up to ten shelters and feeding stations throughout both villages.

Shelters will protect visiting cats from inclement weather, and from predators such as coyotes. To prevent unwanted squatters, such as squirrels and skunks, feeding stations will be placed away from shelters.

Community volunteers will maintain and monitor shelters and stations, and trap repeat visitors so that the cats may be either returned to their owners or, if feral, go through the TNR program.

Missing Found Adopt Program

Every effort will be made to identify and return domesticated cats to their owners, including posting alerts on social media and on the project's website.

Owners will be referred to the Subsidy Program to access subsidized services and supplies for their cat.

Trap Neuter Release Program

Trapped ferals will be transported to a participating veterinarian clinic, where cats will be neutered and vaccinated.

Adoptable cats will be cared for in a foster home until a forever home is secured. Cats assessed as unadoptable, will be released back to where they were found.

50

Subsidy Program

Responsible cat owners understand the importance of tagging and neutering their pets. But we know that pet care can sometimes exceed an owner's financial capacity.

That's why we're working closely with clinics, pet stores, corporations, and government to procure services, products, and funding to help those in need maintain their cat's health.

Community Education Program

Partnering with animal care professionals, this program will offer a range of educational resources for cat owners, including information sheets, social media posts, and community presentations.

We also intend to launch an advocacy campaign to educate community members on feral cat management, and why the TNR Program rather than trap and kill, is much more successful in controlling the local cat population.

Q & A

"Where are you going to put the shelters and feeding stations?"

We have volunteers who are willing to place them on their property.

"Won't this attract more cats to the community?"

The stations will provide us with greater opportunities to catch ferals and strays more quickly.

"My cats not fixed. I don't want him trapped and fixed without permission."

While we can't guarantee that we won't trap your cat, we can guarantee that we will make every effort to connect with owners.

"I'm a senior, can I get my cat fixed for free?"

We know times are tough, especially for those on a fixed income. We're going to do our best to work with our partners in offering subsidized or no cost services and supplies to cat owners in need.

"How do I make a donation, and do I get a tax receipt?"

We are grateful for any cash, service, and goods donations we receive. The League is an incorporated Alberta Society, we are not a registered charity and therefore not permitted to issue tax receipts.

Every dollar donated will move the needle towards a healthier community cat environment.

We accept cash donations via e-transfer or call us for other ways to donate.

TO OUR PARTNERS

When you partner with us, by providing reduced cost or in-kind services and products, we'll make sure you get the recognition you deserve by including your organization in our comprehensive online and print marketing campaigns.

Program/Project: POINT FORM DESCRIPTION <i>FCSS programs must be of a preventive nature that enhances the social well-being of individuals and families through promotion or intervention strategies provided at the earliest opportunity. How does this program or project contribute?</i>	FCSS enhances the social well-being of individuals, families and community through prevention. Protective and risk factors are the aspects of an individual, family, or community (or group) and environment or personal experience that make it less likely (protective factors) or more likely (risk factors) that people will achieve a desired outcome or experience a given problem.
Statement of Need: What community need or issue	Some community members do not feel a sense of belonging to their community. Due to a variety of circumstances, e.g., busy lifestyles, commuter community, bedroom community, some people struggle to build and/or

54

<p><i>does this program or project address?</i></p>	<p>maintain social connections within the community where they live.</p> <p>Few opportunities exist for the community as a whole, to come together.</p> <p>A Needs Assessment report presented by Lac Ste. Anne County, concluded that residents of rural communities are at greater risk of developing mental and social challenges than their urban counterparts.</p> <p>The report identified the following concerns:</p> <ul style="list-style-type: none"> • A void in community-based initiatives related to promoting social networking and relationship building • Limited access to preventative emotional and social supports and resources • Lower levels of social connectedness indicators than urban communities <p>As a result, individuals and families residing in rural communities are more likely to:</p> <ul style="list-style-type: none"> • Be unaware of community support and resources • Feel disconnected from their community • Have feelings of loneliness and isolation • Be at a higher risk of developing mental conditions such as depression • Be at a greater risk of alcohol and drug dependency • Be less likely to graduate, or retain meaningful employment.
<p>Overall Goal: <i>What do you hope to achieve with the program or project [overall change or impact in the long term]</i></p>	<ol style="list-style-type: none"> 1. A connected and engaged community 2. People have enhanced capacity to meet their social needs
<p>Broad Strategy: <i>In general terms, how will the program or project address the community need?</i></p>	<p>Provide a variety of assessable, affordable community-based programs opportunities for community members to come together to connect and create a sense of community and to receive support and guidance from others.</p>
<p>Rationale: <i>What evidence do you have that would support this approach, ie.,if you do these things, then these results will occur? What is your "if/then statement?"</i></p>	<p>If community members are provided with organized opportunities to connect and socialize, then they are more likely to develop relationships with others living in the community, leading to enhanced support networks and a greater sense of belonging to their community.</p> <p>When individuals and families have access to community support and resources that are strategically preventative in nature, community members feel safe, have positive relationships are successful in achieving their academic and employment goals, and overall live qualitative lives as contributing members of society.</p> <p>Research indicates that having a sense of community & belonging is an important social need for people and helps promote their social well-being. Often people's busy lives interfere with their ability to initiate social interactions with community members or to organize fun</p>

	<p>family activities. Supporting research: See The Chief Public Health Officer's Report on the State of Public Health 2008: Addressing Health Inequalities section on social support and connectedness pages 51-53 See: The Importance of Community on the University of Washington website.</p> <p>If people feeling a need for support in addressing specific life issues are provided with support & info, then they will have enhanced ability to deal with these transitions.</p> <p>http://www.counselling-directory.org.uk/solution-focused-brief-therapy.html Solution-focused brief therapy - also known as solution-focused therapy - is an approach to psychotherapy based on solution-building rather than problem-solving. Although it acknowledges present problems and past causes, it predominantly explores an individual's current resources and future hopes - helping them to look forward and use their own strengths to achieve their goals.</p>

En 2024, EEC maintiendra ses paramètres réguliers et son objectif principal d'offrir des emplois de qualité durant la période estivale avec l'objectif de financer plus de 70 000 emplois pour les jeunes.

Les organismes à but non lucratif peuvent recevoir une contribution salariale pouvant atteindre 100 % du salaire horaire minimum en vigueur dans la province ou le territoire. Tandis que les employeurs des secteurs public et privé seront admissibles à une contribution salariale pouvant aller jusqu'à 50 % du salaire horaire minimum en vigueur dans la province ou le territoire.

EEC 2024 - Êtes-vous prêt ?

Êtes-vous prêt à :

- créer des expériences de travail de qualité pour les jeunes ?
- offrir aux jeunes des occasions de développer et d'améliorer leurs compétences ?
- répondre aux priorités nationales et locales afin d'améliorer l'accès au marché du travail pour les jeunes qui font face à des obstacles à l'emploi ?

Subject: Official 2024 Equalized Assessment

Dear Chief Administrative Officers and Appointed Assessors,

The 2024 equalized assessment (EA) for your municipality is now official and available for viewing in the ASSET system. The Provincial 2024 EA Report has been attached for your reference.

The provincial 2024 EA is prepared in accordance with the *Municipal Government Act* and is showing an increase of \$86 billion or 8.8 per cent from the 2023 EA.

A municipality may make a complaint on the amount of the EA to the Land and Property Rights Tribunal within 30 days of the Minister distributing the Provincial EA report. For the 2024 Official EA, the complaint period will expire on December 1, 2023.

During the complaint period, there will be no revisions processed for the 2024 EA. As such, the revised assessment reporting feature in ASSET will be locked.

The following are key dates relating to the official 2024 EA:

- *2024 EA Complaint Period: November 1, 2023 – December 1, 2023*
- *ASSET Locked for revisions: October 24, 2023 – December 1, 2023*
- *ASSET Unlocked for revisions: December 2, 2023 – February 28, 2024*

Following the closure of the complaint period, all 2022 assessment year changes reported and declared in ASSET from December 2, 2023 to February 28, 2024 will automatically result in the recalculation and issuance of a revised 2024 EA.

The 2024 EA will be used to calculate each municipality's contribution to the 2024 provincial education property tax requisition. The 2024 provincial education property tax requisitions are issued following the announcement of the 2024 provincial budget.

TS

To better understand how your EA has changed year-over-year and how that may affect your education property tax requisition, grants, or other programs that rely on the EA, please contact the Tax Programs and Assessment Audit Unit at 780-422-7125, toll free by first dialing 310-0000, or by email at TaxProgramDelivery@gov.ab.ca.

To access your municipality's detailed EA and the Provincial 2024 EA Report, please log in to the *milenet* system at www.milenet.ca and follow the attached instructions.

The Provincial 2024 EA Report is also available on the Ministry's website at

NEWS

November 17, 2023: Calgary, AB

Final Draft Available: New Damage Prevention Legislation for Alberta

Utility Safety Partners (formerly Alberta One-Call) is proposing comprehensive provincial damage prevention legislation for buried and above-ground utilities in Alberta. Currently, only the Canada Energy Regulator's (CER) Damage Prevention Regulations and the Alberta Energy Regulator's (AER) Pipeline Rules require mandatory registration with Utility Safety Partners.

Following the integration of feedback from three public comment periods, the final draft of the proposed Damage Prevention legislation is now available on our specially designed [microsite](#) that has been developed as an information and engagement hub for this important initiative.

The new legislation would enhance safety across the province by creating a comprehensive provincial energy and utility notification system that would require the registration of all critical infrastructure with Utility Safety Partners by every:

- Municipality in Alberta
- Gas distributor and every gas transmitter
- Operator of a distribution system
- Person or entity that owns or operates underground infrastructure within a public right of way or that crosses a public right of way
- Electricity distributor and electricity transmitter

The new Legislation would also require submission of a locate request to Utility Safety Partners prior to every ground disturbance.

While the majority of Alberta's municipalities have registered their assets as members of Utility Safety Partners, many others would need to register their critical infrastructure assets if the proposed Damage Prevention legislation is approved. While the cost of registering with Utility Safety Partners is minimal, identifying all critical assets can require a significant initial investment. The comment period process has provided recommendations to reduce the impacts by providing municipalities with a five-year grace period to register the location of their buried assets via polygon / shapefile which will help manage long-term operating costs.

The risks and impacts of an incident far outweigh the costs of registration.

- Digging without a line locate is dangerous: It puts workers, communities and the environment at risk
- Hitting a utility line can disrupt essential services, require costly repairs, and cause fires, explosions, environmental damage, personal injury and death
- Direct and indirect costs of hitting a single line (power, oil & gas, telecom/cable) average \$70,000 per strike
- Damage to underground infrastructure alone is estimated to cost Albertans \$350 million annually
- Registering your assets and being part of USP provides a reliable notification system that reduces liability risk for those who have not registered and identified their infrastructure

We are hopeful the proposed legislation will be brought to the Alberta Legislature in the near future. We want all organizations in Alberta that own or operate buried or above-ground energy and utility infrastructure to register with Utility Safety Partners – a certified and trusted communication service and notification centre that ensures one click or call will initiate a damage prevention process that keeps Albertans safe and avoids interruptions to important services in our communities and economy.
